

Please join us for the

Final Meeting of the NVH Consortium

(acting as a Part B CARE Consortium)

Thursday, March 1, 2018

10AM – Noon

NVRC ♦ 3040 Williams Drive, # 200 ♦ Fairfax, VA

As those of you who attended the February Consortium are aware, the Consortium's role in receiving and awarding Part B funds for Suburban Virginia HIV/AIDS services is coming to a close on March 31, 2018. In the future, VDH will contract directly with service providers to provide core and support services for PLWH in our region.

As a result of this decision, the Consortium's roles re: Part B, including priority setting and resource allocation will end in March. NVRC's active staffing of the Consortium also will end March 31st.

We invite you to join us in person at the March Consortium Meeting both for a discussion of what should/could be the future of the Consortium, as well as to celebrate all the achievements and great people we've come to know as a result of our association with this longstanding collaborative body.

Tim Agar will lead us in some brainstorming about what it is members value about the Consortium and whether there are issues or needs that require the Consortium to continue in some form.

Once the brainstorming concludes, members will be invited to share recollections and stories about their time with the Consortium. If you know someone who participated in the Consortium that we haven't seen in a while, please invite them to come back for this milestone meeting and celebration.
